

MARKET REPORT – WEEK 46

BASED ON SALES AND PURCHASES OF VESSELS WEEK ENDED FRIDAY 19TH NOVEMBER 2021.

Despite the BDI blipping up a smidgen in week 45, due to the BCI posting a solitary gain, the now 6 week BDI downward trend resumed last week by -9.1% comprised of w-o-w declines of all Baltic dry indexes: BCI -5.9%, BPI -22.1%, BSI -0.7% and BHSI -3.2%. Overall the BDI has now nearly halved in the 6 week period from 5526 points at the end of week 40, to 2552 points at the end of week 46.

The dramatic 'correction' in the dry freight market is now predictably being reflected in the bulker S+P market too whereby buyers are adopting a more of a 'wait and watch' approach and sales that are completing are now at last done or below last done levels.

Conversely, although the two Baltic wet indexes are still at very low levels there has been visible growth over the past same 6 weeks ie the Baltic Dirty index has risen from 680 points at the end of week 40 to 780 points by the end of last week while the Baltic Clean Index has improved respectively from 473 to 596 points. The visible upshot of this is that while we had already recently seen a few MRs change hands we have now also seen the first 2 Aframaxes sold since July this year. Basically, as we head into the northern hemisphere winter, albeit with Covid figures on the rise again to the extent some European Countries are already contemplating future lockdowns, we are already seeing tanker S+P activity where there was previously none, but not yet any appreciable increase in values.

The subcontinent recycling scene is somewhat difficult to interpret at the moment because while India, Pakistan and Bangladesh have all seen significant reductions in local steel plate prices of circa \$45 per ton causing respective local breakers to apparently be keen to reduce the levels they are willing to offer to under \$600 per LDT, they may find it hard to do so due to simultaneously having to compete with each other for the limited number of vessels actually being offered for scrap these days.

THE ABOVE INFORMATION IS GIVEN IN GOOD FAITH BUT WITHOUT GUARANTEE AS TO ACCURACY OF SAYING.
